Project Title: Munich History

I'd like to build this site as different pages, so it is not simply one long page. I want the site navigation at the top and there is a lot of different information that I can focus on to build multiple pages.

- **Home Page** – Introducing the current Munich and giving background about what section of history is being focused on

- **Prehistory Munich**

- **Roman Period**

- **Origin of Medieval Town**

- **Capital of Reunited Bavaria**

- **World War I to World War II**

- **Post War**

- **Sources**
